PROFESSIONAL SUMMARY

A highly motivated and self-driven computer science student with hands-on experience in building scalable full-stack web applications using the MERN Stack and react-native. Strong grasp of data structures and algorithms, keen interest in backend API development and modern UI design. Proven ability to solve real-world problems, collaborate in team environments, and continuously learn new technologies. Actively contributing to open-source projects and sharpening skills on coding platforms like LeetCode and GFG.
