TECHNICAL SKILLS

- C++, DSA, JavaScript, HTML, CSS, Typescript.
- ReactJS, NodeJs, ExpressJs, MongoDB, React-Native, Tailwind CSS.
- Docker, SQL, Git & GitHub.

PROJECTS

Spice City   LiveLink , GitHub
React, Tailwind CSS, Express,MongoDb

- Implemented **JWT-based authentication system** to provide secure login, signup, and protected routes for users. Implemented interactive visualizations of sorting algorithms, with **fully adjustable speed and array size.**
- **Designed** and developed a dynamic **add-to-cart feature**, enabling users to seamlessly add**, update, and remove items** from their cart.

Language Translator App   LiveLink , GitHub
React,Express,SQL

- Integrated **Gemini API** to provide accurate **real-time text translation** along with **text-to-speech functionality** for improved accessibility**.**
- Developed a **ReactJS-based frontend** with an intuitive and responsive UI for seamless user interaction.
- Implemented **an ExpressJS backend** with MongoDB to handle API requests, store user preferences, and manage translations.
- Deployed the application on **Vercel**, ensuring fast performance, scalability, and smooth deployment workflow.

College ERP System   LiveLink , GitHub
ExpressJs , ReactJs , MongoDb,TailwindCss

- Designed and developed a **full-featured ERP system** for college administration using **MongoDB, ExpressJS, ReactJS, and NodeJS**.
- Implemented **role-based authentication** (admin, faculty, student) ensuring secure and restricted data access.
- Created **intuitive dashboards and responsive UI** for different user roles, improving overall usability and efficiency.

EDUCATION

Geetanjali institute of technical Studies, Udaipur	2022 - 2026
BTech in Computer Science	8.2 / 10
Alok Senior Secondary School, Udaipur	2021 - 2022
Senior Secondary Education, CBSE	82 %

ACHIEVEMENTS

- Maintain a **Github Portfolio** with diverse Coding Projects.
- Successfully Delivered **multiple freelance projects** with positive client feedback.
- Solved **200+ DSA problems** on LeetCode, Hacker rank, and Codeforces.
